ABOUT

The 1st International Conference on Advanced Research in Sustainable Economic and Social Science (ICARSESS-24) proudly announces its inaugural as a beacon of intellectual dialogue and collaborative discovery. This conference is the evolution of its previous form, the 2nd International Conference on Advanced Research in Social and Economic Science (ICARSE). ICARSESS-24 that has the theme "Sustainable Economic and Social Science for Society 5.0: Fostering Innovation and Development", seeks to foster a fertile ground where academics, professionals, and industry experts can converge to dissect, discuss, and devise strategies that leverage the power of social science and economics in charting a course towards a globally resilient and prosperous future in the post-pandemic era.

In this critical juncture of history, ICARSESS-24 aims to be a crucible where innovative ideas and evidence-based strategies are cultivated to address the challenges that have emerged in the wake of the global pandemic.
